Responsible Minerals Trade Working Group Wins IPC - Distinguished Committee Service Award

Responsible Minerals Trade Working Group

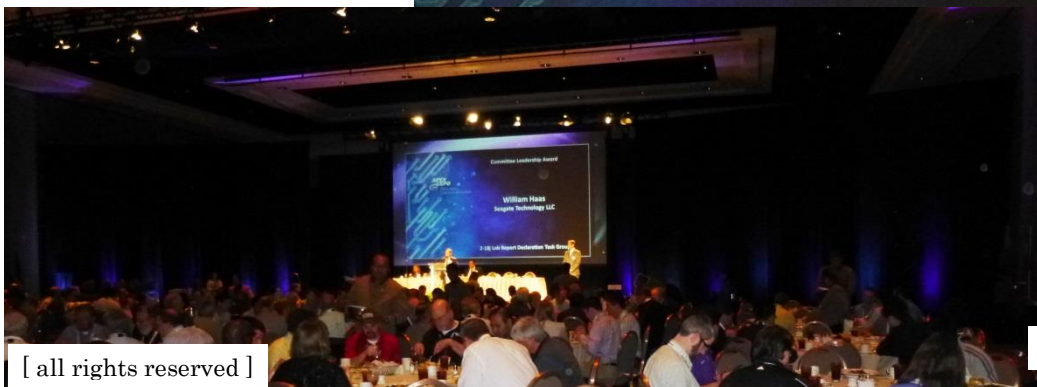

The JEITA Responsible Minerals Trade Working Group has been presented with the Distinguished Committee Service Award by IPC in recognition of its contribution to the development of IPC-1755, Conflict Minerals Data Exchange Standard, in which the Working Group's Joint Task Force on Data Exchange Standard Development participated.

IPC - Association Connecting Electronics Industries is a trade association representing the electronics industry, particularly printed circuit board designers and manufacturers.
