InterBEE 2014 JEITA Booth

Here ! JEITA Booth

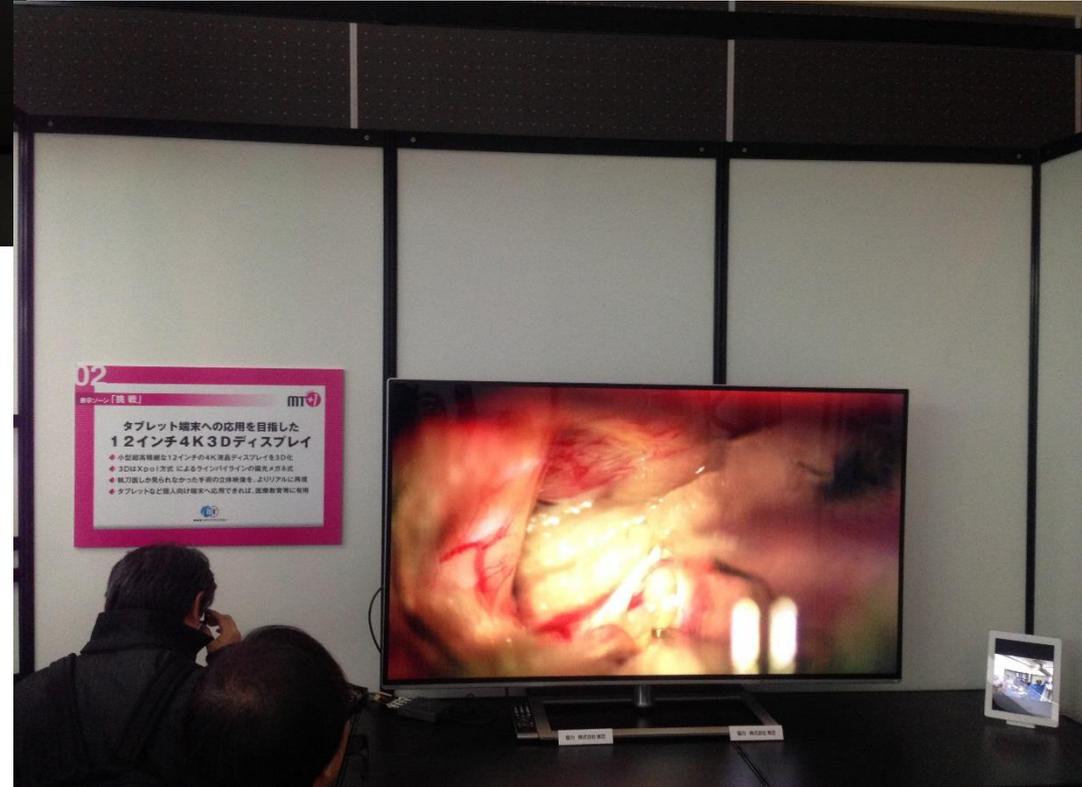

InterBEE 2014 JEITA Booth

InterBEE 2014 4K 3D Brain surgery

- 4K-3D digital cinema movie of a live human surgery is available.

InterBEE 2014 4K Digital Signage

- 4K digital signage seems to be a practical solution as 2K does not clearly display small fonts and 4K data can be transmitted via laptop PC.
- Expected to be seen by 2020 Tokyo Olympics

InterBEE 2014 8K Camera

- Japan has announced its intent to broadcast 8K by the 2020 Tokyo Olympics

InterBEE 2014 8K 3D Demo Live

- NHK demonstrated 8K live broadcasting at the show

InterBEE 2014 JEITA Booth Summary

- A lot of interest in tape as data capacity is increasing in M&E industry
- More than 200 visitors topped by the JEITA booth
- All media vendors' and tape drive vendors' products were showcased at the booth
- Visitors were impressed by Extended LTO roadmap up to generation 10 that future of tape technology is viable and affordable
